Professional Summary

Gameplay Programmer with 3+ years of experience in Unreal Engine 5 and Unity, specializing in gameplay mechanics, AI systems, and multiplayer networking. Proven track record in commercial releases (*Rich Dad Simulator*) and complex prototypes (*War Miner*, *Order of Danann*). Skilled in C++, Gameplay Ability System, and immersive VR/AR experiences. Passionate about creating engaging, optimized, and player-focused gameplay systems.

Professional Experience

Associate Gameplay Programmer, *G-Devs.com* 03/2024 – present
Warsaw, Poland

- Enhanced AI systems and gameplay mechanics for **Rich Dad Simulator**, including garbage truck AI, NPC behaviors, and resource management systems.
- Developed narrative-driven AI and interactive systems for in-game features.

Gameplay Programmer (contract), *Software Districts* 04/2022 – present
Lahore, Pakistan

- Designed gameplay mechanics and dynamic environments for a **Chinese RPG prototype**.
- Built immersive VR zombie combat interactions and AI systems (*Zombie VR Project*).
- Engineered physics-based shooter mechanics (*Gravity Gun Shooter Prototype*).
- Developed VR & PC **Visual E-commerce App** for an intuitive multi-platform experience.
- Created cooperative systems, AI behaviors, and combat features for **Karma & Jonar**.
- Implemented attack systems, enemy AI, and interactive mechanics for **Order of Danann** using Gameplay Ability System.
- Developed multiplayer combat systems and networking for **Trib 3** TPS Shooter.
- Built a **City Generator Tool** for procedural city creation and destructible environments.
- Engineered RTS mechanics for **War Miner**, covering resource management, base construction, real-time combat, and multiplayer functionality.

Gameplay Programmer (volunteer), *Atarious Studio* 09/2023 – 03/2024
Colombo, Sri Lanka

- Developed core horror gameplay mechanics, enemy AI, and intricate puzzles for **Janda: The Mansion**, enhancing player immersion.

Gameplay programmer intern, *G-Devs.com* 09/2022 – 09/2023
Warsaw, Poland

- Implemented AI systems, UI interfaces, and gameplay mechanics for **Rich Dad Simulator** , creating an engaging and dynamic environment.
